Its good but my anti virus software won't let me run it.. Love this game.

I use to play it before it was on Steam and was addicted to it.

Unfortunately--they kept moving it over and my accounts would be completely deleted and such.

So I was pretty fed up on trying to make progress on the game until finally I saw that it had come to Steam.

This game isn't a pay to win game.

It has tons of different game modes and characters to choose from and they are always doing events to give you free stuff.

The one downfall is the fact that you have to either pay or someone win the female gender characters or else the default is male...

Other than that it's super fun to play alone or with friends-you can customize your hero to how you like, etc etc.

It's free so why not just try it.

. I think this game is Lag Saga (alway cannot operate,rip faction rank). 66 hours, 10 hours was playing the game, 55 hours fishing. All those years in Cuba paid off .. Game Full Of Spamer An lagger That or Pretty Ez to Beat with basic over ALL its a Good Game
